Dr. Roy Spencer Named Senior Scientist for Climate Studies

Dr. Roy W. Spencer has been appointed Senior Scientist for Climate Studies in Marshall's Space Sciences Laboratory. Spencer, as NASA's authority on atmospheric measurements and climate studies, leads the development of theoretical, analytical and observational techniques for the measurement of specific climate processes from space-based sensors.

X-34 Systems Design Freeze Successfully Completed

Government and industry managers have successfully completed a systems design freeze of the X-34, the next technology demonstrator vehicle in NASA's Reusable Launch Vehicle (RLV) stable. The RLV program is aimed at dramatically reducing the cost of transporting payloads into space.

MARS Golf Club Tournament Deadline for Entries is Friday
